

EPSON[®]
EXCEED YOUR VISION

Epson **TM-S1000 Series**

Epson **TM-S1000**

A high reliability cheque and coupon scanner
for financial and corporate markets

Remote deposit capture completely changes and speeds up the interaction between banks and depositing customers. The TM-S1000 offers new innovative features, including outstanding MICR accuracy, together with the quality and reliability Epson is known for.

Leading MICR accuracy and advanced features

Epson's TM-S1000 cheque scanner is ideal for banks and corporations that want to capture cheques using back office capture (BOC), remote deposit capture (RDC) or a combination of the two. The Epson cheque scanner is available in both a 30 DPM and 60 DPM versions. It features RDM's MICR algorithms and imaging to provide the highest MICR accuracy of any desktop scanner on the market today. The TM-S1000 also features clear electronic endorsements, a double cheque detector that virtually eliminates multiple cheque feeding and a built-in franker that prints a static message on cheques to prevent double processing.

Compact design and self-explanatory concept

Flexibility to meet application requirements

The Epson TM-S1000 comes with two pocket support as a standard feature. This gives you the flexibility to process and segregate different types of documents such as cheques and payment coupons. In addition, the 100 sheet document feeder allows high volume processing.

Easy to use and control

Whether you use the Epson TM-S1000 in the back office or at a busy teller station, the TM-S1000 has been designed for easy maintenance. The cheque scanning process is simple and replacing the franker unit is quick and easy and does not require any special training. The scanner also features advanced self-diagnostics which keep the operator informed of the scanner status and provide clear error indications on the scanner and error messages displayed via host software.

Epson quality and reliability

With a MCBF of 2.47 million documents, the Epson TM-S1000 has the reliability you need. As a world leading manufacturer of retail and office equipment, Epson offers high quality engineering with world class quality control and support.

Quick and easy access of all important parts

Quick franking stamp replacement

Epson TM-S1000

Key Features

- High accuracy of cheques and document image capturing
- Reliable double-sided scanning, recognizing and franking
- High processing speed of up to 60 cheques per minute
- Sophisticated paper sensors to ensure single paper feed
